

Tentative Program

WCID
2020

WORLD CONGRESS ON
INFECTIOUS DISEASES

THEME : DISCOVERING NEW INSIGHTS
FOR A DISEASE FREE LIFE

NOVEMBER 19-21, 2020 | ROME, ITALY

 <https://infectious-diseases-conferences.magnusgroup.org/>

 infectiousdiseases@magnusmeetings.com

 @WCIDconference

KEYNOTE SPEAKERS WCID 2020

Manal Mohammed
University of Westminster
UK

E Diane Williamson
Defence Science and
Technology Laboratory, UK

Katja Fischer
QIMR Berghofer Medical
Research Institute, Australia

John J Miles
James Cook University
Australia

Javier Sancho
University of Zaragoza
Spain

Leticia M Estevinho
Coordinator Professor
with Agregação, Portugal

Giulio Filippo Tarro
Foundation T & L de Beaumont
Bonelli for cancer research, Italy

Marco Libanore,
University Hospital of Ferrara
Italy

Anouar Alami
Sidi Mohamed Ben
Abdellah University, Morocco

Segundo Mesa Castillo
Psychiatric Hospital of Havana
Cuba

Mario Enrique Garcia Rodriguez
Institute of Tropical Medicine
Pedro Kouri, Cuba

Sarah El-Nakeep
Ain Shams University
Egypt

Maria Guadalupe Cordova Espinoza
National School of Biological Sciences,
Mexico

Keynote Speakers

Presentation Title

Manal Mohammed

University of Westminster, UK

Non-typhoidal Salmonella: Why Should We Care?

Javier Sancho

University of Zaragoza, Spain

Flavodoxins as drug targets. Novel *Helicobacter pylori* specific antimicrobials**Maria Guadalupe Cordova Espinoza**National School of Biological Sciences,
Mexico

Prevalence and resistance profile from ESKAPE bacteria group in a third level hospital

Anouar AlamiSidi Mohamed Ben Abdellah University,
Morocco

Comparative study of some pharmacological activities of heterocyclic compounds derived from spiro-isoxazoline, triazole, tetrazole, pyrazole and tryptophan

Segundo Mesa Castillo

Psychiatric Hospital of Havana, Cuba

Direct evidence of viral infection and mitochondrial alterations in the brain of fetuses at high risk for schizophrenia

Mario Enrique Garcia RodriguezInstitute of Tropical Medicine Pedro Kouri,
Cuba

Training program established by the Institutional Committee for the Care and Use of Laboratory Animals (IACUC) in pre-clinical trials on infectious diseases

Sarah El-Nakeep
Ain Shams University, Egypt

Infections in decompensated liver disease patients, a review of the literature

John J Miles
James Cook University, Australia

New technologies using blood immune cells to inform on human disease status

Katja Fischer
QIMR Berghofer Medical Research Institute, Australia

Global exploration of scabies-associated microbiota: a multi-country, observational cross-sectional analysis to understand the pathobiology of impetigo linked to scabies.

E Diane Williamson
Defence Science and Technology Laboratory, UK

Novel approaches to vaccination to prevent emerging diseases

Oral Presentations

Speaker

Presentation Title

Konstantin Lyashchenko
Chembio Diagnostic Systems, Inc., USA

Zoonotic Tuberculosis: Characterization of Antibody Responses in Various Host Species for Improved Serodiagnosis

Jonathan Abeles
London School of Hygiene and Tropical Medicine, UK

Quantification of Inter-Village Heterogeneity of *Plasmodium Falciparum* Malaria Using The Gini Coefficient: A Secondary Analysis of The Garki Project and Selected Other Studies in West Africa

Petr Volf
Charles University, Czech Republic

Potential for spread of *Leishmania tropica* in southern Europe by local sand flies

Entela Kolovani
University Medical Center of Tirana Mother Teresa, Albania

Management and Outcome of Tetanus in a Tertiary Hospital in Albania

Claude Libert
Center for Inflammation Research, Belgium

Sepsis as a metabolic adaptation failure

Hector Javier Gallardo Valencia
Michoacana University, Mexico

Prevalence of toxoplasmosis in populations of Tlacuaches (*Didelphis albiventris*), in the municipality of Morelia and its zoonotic relationship

Amalia Tri Utami
Maulana Malik Ibrahim State Islamic University Malang, Indonesia

A Novel Therapy for Scabies's Disease

Hideo Yamazaki
Tokoha University, Japan

Attempt to modernize susceptibility phase based on the theory of natural history of disease

Erzheny Tsybikova
Federal Research Institute for Health Organization, Russia

Combined Tuberculosis/HIV infection in Russia: Current status and perspectives

Biruk Yeshitela Beshah

Armauar Hansen Research Institute,
Ethiopia

Performance of rapid diagnostic tests versus microscopy and PCR for malaria detection: A systematic review and meta-analysis

Asoba Gillian Nkeudem

University of Buea, Cameroon

P. Falciparum diagnostic challenges and the influence of infant feeding practices on the occurrence of malaria parasite, malnutrition, anaemia and haematological profiles in children ≤ 5 years living in Ekona, Dibanda and Muea in the Mount Cameroon area

Silvia Giono Cerezo

National Polytechnic Institute, Mexico

Infections caused by antibiotic-resistant ESKAPE group in Mexico

Jean-Pierre Gnimatin

Laboratory of Applied Biology Research,
Benin

Mathematical Modeling of the resistance of *Klebsiella Pneumoniae* Uropathogenes strains to classic Antibiotics families

Souleye Lelo

Cheikh Anta Diop University, Senegal

OMNIGEN Kit accuracy for *Plasmodium falciparum* saliva detection in Senegal

Akinbobola Jones Soladoye

University of Abuja, Nigeria

Personal protective equipment use Among veterinarians: A threat to the prevention of zoonoses in Nigeria

Afsaneh Sharifian

Shahid Beheshti University of Medical Sciences, Iran

Steps toward a world without hepatitis B

Aliakbar Yousefi-Ahmadipour

Rafsanjan University of Medical Sciences, Iran

Platelets lysate and IBD treatment

Mir M Hassan Bullo

Ministry of National Health Services, Regulation and Coordination, Pakistan

Evaluation of HIV/AIDS Surveillance System-Pakistan 2019

Jean-Pierre Gnimatin

Laboratory of Applied Biology Research, Benin

Mathematical Modeling of the resistance of Klebsiella Pneumoniae Uropathogenes strains to classic Antibiotics families

Faris Lami

Baghdad University, Iraq

Infectious Diseases during Mass gathering: Iraq Experience

Badri Nath Jnawali

National Tuberculosis Centre, Nepal

Prevalence of Human Immunodeficiency Virus Infection among Tuberculosis Patients in Nepal

Izet Sadiku

University Clinical Center of Kosovo,
Kosovo

Tularemia during last outbreak in Kosovo 2014-2015
Izet Sadiku,
University Clinical Center of Kosovo, Kosovo

Olga Lidia Garcia Cardenas

Institute of Tropical Diseases "Pedro Kouri",
Cuba

Battling with standards before fighting microorganism

Sayed Farouk Mohamed Ahmed

AL-Azhar university, Egypt

Diagnostic role of cerebrospinal lactate dehydrogenase and serum procalcitonin in meningitis in beni-suiefe governorate

Sumon Poddar

Institute of Child Health, India

An Observational Analytical Retrospective Study on the Profile of Adenoviral Infection among Children Admitted In a Tertiary Care Centre in Eastern India

Alok Chakrabarti

National Institute of Cholera and Enteric
Diseases, India

Changing nature of influenza viruses and the flu pandemics

Debkishore Gupta

C K Birla Hospitals, India

Impact of optimizing antibiotic prophylaxis policy on surgical site infections

Sorush Niknamian
University Of Cambridge, UK

Medical ozone therapy as the effective treatment for Ebola and AIDs

Speaker Slots Available

Poster Presentations

Poster Presentation

Presentation Title

Jacob Baker
University of Manchester, UK

Histoplasmosis in South East Asia

Tarek M K Metawie
Cairo University, Egypt

Potential serum biomarkers for early detection of diabetic nephropathy

Berna Bozca
Afyonkarahisar State Hospital, Turkey

Cutaneous Myiasis in an Elderly Man

Abdulla Al Amoodi
Academic Affairs Family Medicine Residency Program, UAE

A Case Report: Clinical manifestations of Brucellosis

Abdulla Al Amoodi

Academic Affairs Family Medicine Residency Program, UAE

Diabetes and Oral Fungal Infections

Yudith Cauna Orocollo

Universidad Peruana Cayetano Heredia, Peru

Standardization of a pncA Gene Complementation Technique in Mycobacterium tuberculosis pncA-knockout: Tool for the Study of the Relationship Between Mutations in pncA and Phenotypic Parameters

Ergys Ramosaco

University Medical Center of Tirana Mother Teresa, Albania

Primary multiple cerebral hydatid cysts: An unusual case report in European countries

Sarah M Abdelhamid

Damanhour University, Egypt

Time to Positivity and Antibiotic Sensitivity of Neonatal Blood Cultures

Silvia Giono Cerezo

National Polytechnic Institute, Mexico

Molecular Analyses and Prevalence of Klebsiella pneumoniae isolates harboring blaNDM-1, blaCTX-M-15, aac(6')-IIb and aac(3)-Ia in plasmids recovered from nosocomial bacteremia in Mexico

Pankaj Jorwal

All India Institute of Medical Sciences, India

Diagnostic utility of bronchoalveolar lavage and computerized tomography in diagnosis of recurrence among sputum scarce and sputum negative treated pulmonary tuberculosis suspects

Muntasir Alam
University of Dhaka, Bangladesh

Introduction of Forced Control Policies Besides Pre-emptive Vaccination to Oppress the Rapid Transmission of Epidemic Diseases- A Game-Theoretic Approach

David A Oyebamiji
University of Ibadan, Nigeria

Climatic factors and spatial distribution of STHs in faecal samples collected from populations in Local Government Areas within Ibadan, Southwestern, Nigeria

Ali Ghorbanipour
Massoud Medical Laboratory, Iran

Comparison of BACTEC MGIT with conventional methods for detection of Mycobacteria in clinically suspected patients of pulmonary tuberculosis in a Routine Diagnostic Laboratory

Mahnaz Tashakori
Rafsanjan University of Medical Sciences,
Iran

Antibiotic resistance pattern of staphylococcus aureus isolates in Rafsanjan, Iran (*southeast of Iran*)

Mohseni Moghadam Fatemeh
Rafsanjan University of Medical Sciences,
Iran

Assessment of the frequency of Staphylococcus aureus carriers and its antibiotic susceptibility in paramedical students in Rafsanjan University of Medical Sciences, Iran

Monireh Rahimkhani
Tehran University of Medical Sciences, Iran

Detection of urinary *Chlamydia trachomatis*, *Mycoplasma genitalium* and *Human papilloma* virus in the first trimester of pregnancy by PCR method

Bijayata Shrestha
HAMS Hospital, Nepal

Antibiotic Susceptibility Pattern of Salmonella Isolated from Enteric Fever Suspected Patients

Ivelina Trifonva Trifonova
National Centre of Infectious and Parasitic Diseases, Bulgaria

Viral pathogens associated with acute lower respiratory tract infections in bulgaria

Jennifer Eddins
University of Colorado Health, United States

The Impact of Lemongrass, Oregano, and Thyme Essential Oils on Candida albicans Virulence Factors

Yewon An
Korea National Institute of Health, Republic of Korea

Genetic and biochemical equivalent characterization for *Staphylococcus* and *Micrococcus* NCCP resources as reference strains

Joon Ki Kim
Korea National Institute of Health, Republic of Korea

Characteristic analysis for clinical isolates of *Pseudomonas aeruginosa* NCCP strains from Korea

Su Yeon Kim
Korea National Institute of Health, Republic of Korea

Molecular and Biochemical Characterization of Escherichia coli NCCP strains in Korea

Lilian Ji

Suzhou University of Science and
Technology, China

Study on Anti-pathogenic Activities and Effective Components from
Leaves and Stalks of *Chrysanthemum nankingense* Hand. Mazz

Ana Carolina Borsanelli

Universidade Federal de Goias, Brazil

Characterization of subgingival microbiomes associated with
periodontal lesions in goats

Iveraldo dos Santos Dutra

Sao Paulo State University (UNESP), Brazil

Microbiota present in periradicular abscesses in Marsh deer
(*Blastocerus dichotomus*) kept in captivity

Eliane Patricia Lino Pereira Franchi

Federal University of Tocantins, Brazil

Primary health care: a challenge for infection control

Jose Eduardo Toledano-Tableros

Instituto Politecnico Nacional, Mexico

Molecular analysis and prevalence of *Klebsiella pneumoniae* isolates
harboring determinants of antimicrobial resistance to β -lactams
and aminoglycosides recovered from nosocomial bacteraemias in
Mexico

Aboi Igwaran

University of Fort Hare, South Africa

Campylobacteriosis agents in meat carcasses collected from two
District Municipalities in the Eastern Cape Province, South Africa

Priyatam Khadka
Tribhuvan University Teaching Hospital,
Kathmandu, Nepal

Characterization of adverse effects and its associations in the patient medicated with anti-tubercular drugs

Sirijan Santajit
Mahidol University, Thailand

Human Single-Chain Antibodies to ETA: Potential Therapeutic Agent against Pseudomonal Infection

Kandinov Ilya Denisovich
Russian Academy of Sciences,
Russian Federation

Molecular drug susceptibility testing and genotyping of *Neisseria gonorrhoeae* isolates in Russia

Tatenuma Katsuyoshi
KAKEN CO., LTD, Japan

Iodox-spray: a versatile and multipurpose spray disinfectant. Anti-bacterial, anti-viral, anti-fouling, anti-mold applications, for pathogen-free environments

Tatenuma Katsuyoshi
KAKEN CO., LTD, Japan

Iodox: a granular scatter disinfectant characterized by quick effectiveness and long-lasting durability. Application as a disinfectant against livestock infectious diseases and infectious pathogens

Spaziani Fabio
ENEA, Italy

Applications of an iodine-based disinfectant with immediate and long-lasting efficiency. Avian influenza virus inactivation effect by iodine-doped activated carbon

Spaziani Fabio
ENEA, Italy

Iodine-doped activated carbon as innovative tool for water sanitation and treatment

Matteo Garofalo
University of Texas Medical Branch, USA

Effect of TAGDD-1, a novel hydrogen sulfide donor, on influenza virus replication

Sophie Rigvava
George Eliava Institute, Georgia

Identification , characterization and antibiotic resistance of *Streptococcus agalactiae* clinical samples isolated in Georgia
